

Overall survival – within-PTCy variants

Comparison 3 (within-PTCy regimen variants)

	PTCy events/N	Comparator events/N	Weight (%)
REML pooled	–	–	–
Mussetti (2023)	684/1830	79/310	27.4
Battipaglia G (2022)	23/67	132/374	21.6
Singh (2022)	179/403	753/1605	28.2
Mandaci Sanli N (2025)	5/17	7/16	8.2
Xu ZL (2025)	1/44	1/22	2.7
Dulery R (2023)	10/33	14/25	11.9

Study rows: raw per-study OR with Wald 95% CI (0.5 correction for zero cells). Weights: REML inverse-variance. Diamond: REML pooled.

Non-relapse mortality – within-PTCy variants

Comparison 3 (within-PTCy regimen variants)

	PTCy events/N	Comparator events/N	Weight (%)
REML pooled	–	–	–
Mussetti (2023)	367/1728	41/293	30.0
Xu ZL (2025)	1/44	0/22	7.7
Dulery R (2023)	3/33	6/25	18.8
Kim H (2026)	10/99	81/252	27.2
Mandaci Sanli N (2025)	2/17	7/16	16.3

Study rows: raw per-study OR with Wald 95% CI (0.5 correction for zero cells). Weights: REML inverse-variance. Diamond: REML pooled.

Acute GVHD grade II–IV – within-PTCy variants

Comparison 3 (within-PTCy regimen variants)

	PTCy events/N	Comparator events/N	Weight (%)
REML pooled	–	–	–
Mussetti (2023)	590/1690	71/279	23.2
Dulery R (2023)	6/33	4/25	14.4
Xu ZL (2025)	8/44	4/22	14.9
Xu X (2021)	5/31	14/36	16.3
Bailen R (2022)	13/99	55/130	20.6
Mandaci Sanli N (2025)	0/17	3/16	5.7
Hyder MA (2025)	0/23	1/5	4.9

Study rows: raw per-study OR with Wald 95% CI (0.5 correction for zero cells). Weights: REML inverse-variance. Diamond: REML pooled.

Chronic GVHD mod-severe – within-PTCy variants

Comparison 3 (within-PTCy regimen variants)

	PTCy events/N	Comparator events/N	Weight (%)
REML pooled	–	–	–
Bailen R (2022)	19/99	22/130	41.4
Dulery R (2023)	2/33	4/25	18.7
Mandaci Sanli N (2025)	2/17	5/16	18.3
Xue E (2022)	2/21	14/42	21.6

Study rows: raw per-study OR with Wald 95% CI (0.5 correction for zero cells). Weights: REML inverse-variance. Diamond: REML pooled.
